

Littérature indicative – Gestion de Projet et Innovation

Rémi Maniak, Professeur, Ecole polytechnique, Août 2021

Ce document est à l'attention des doctorants I3, suite à l'événement I3/IPParis organisé à Aussois en juillet 2021. Il tente de sélectionner des articles particulièrement phares sur le sujet de la gestion de projet et de l'innovation. Il est évidemment discutable mais permettra à ceux qui souhaitent / doivent mobiliser ces problématiques d'aborder ces sujets par le bon bout. Ces thématiques ayant été largement investiguées par le CRG, le lecteur y trouvera de nombreuses références issues du CRG, mais aussi des références internationales qui font référence.
